Testimonial regarding Cottage Computers:

22 JUNE 2010

I recently required to upgrade my computer and needed the expertise of someone or some company to help me in my decision making on what would serve me the best.

As luck would have it in my chapter I have both a representative, Jesse Hill, and his company, Cottage Computers to draw upon.

The service that I received was exceptional and supportive in helping determine which computer would be best. I was asked great questions to further develop awareness around what my needs were and which system would best meet those needs. I felt a part of the process and never did I feel I was being pushed into a decision that was being made by the staff. I was served by Jesse, JP, Keri, and Lucas and I felt the same level of dedicated service from all of them.

I would have no hesitation in recommending Cottage Computers to anyone who is in the market for a new computer.

Thank you Cottage Computers for your dedication to meeting my needs.

With gratitude
