To Whom It May Concern:

We have used the services provided by Cottage Computers for several years now and have found them to be invaluable.

Their IT people are very knowledgeable, courteous and most willing to do whatever it takes to resolve issues often presented by our network.

Cottage computers can provide an IT person to us the next day for routine difficulties and within a couple of hours in an emergency.

Remote access also allows minor glitches to be handled immediately with no down time to our clinic routine.

All their personnel are readily available to speak to for phone advise or to check on in stock hardware.

I find the front-end staff (especially Keri) provides quotes quickly and expedites customer orders for specialty items efficiently and seems to go above and beyond.

I would highly recommend Jesse's team at Cottage Computers.

With regards;
