Leduc, AB

JP,

Thank you very much for the excellent customer service your company has provided since my wife & I have purchased Minuteman Press in Leduc.

Over the last couple of years, we have experienced a couple of hard drive failures, which you yourself have repaired, on-site within hours of being called.

We also received an item that was dead on arrival, which was replaced, no questions asked.

As a business owner who views customer service to be the key differentiator in a crowded marketplace, I am a very satisfied customer, who would recommend anybody looking for computer & IT services to contact you.

Thank you again for the excellent work,

Robert Gueutal
Owner-Operator
Minuteman Press Leduc
