Cottage Computers Ltd.
5210 50th Street
Leduc, Alberta

Attention: Jesse Hill

Dear Sir:

Re: Letter of Reference – Cottage Computers and Data Superhero

It is my pleasure to provide this letter of reference to Jesse and his team at Cottage Computers and Data Superhero.

We rely on Cottage Computers for all our computer needs and have also enjoyed the security of knowing that Data Superhero was backing up our data to a secure off-site location each evening.

Unfortunately we recently discovered the crucial importance of daily backup when our server was corrupted and the majority of our data was lost. Cottage Computers immediately responded when alerted to the problem and not only worked to resolve the issue but also concurrently devised a "Plan B" in the event the anticipated solution proved to be ineffective. Within hours of becoming aware of our concern our system was fully operational, our data had been restored and we were all back to work.

Cottage Computer understood that the matter was critical to our business and responded in kind with prompt, professional and effective service.

For those of your that require IT support or are looking for a simple and affordable data back up solution, I would strongly encourage you to speak to Jesse and am pleased to give him my highest recommendation.

Yours truly,

HILLENBRAND KOZICKI LLP
